Conservative Broadcast Media & Journalism is publicly traded under the symbol CBMJ.

Floyd Brown, a Director of CBMJ, has a reputation for growing formidable Conservative companies such as The Western Journal, a digital news publication upholding traditional Christian values, and Citizens United, which grew to become one of America's most influential citizens organizations under Brown.

*"Conservative Broadcast Media Journalism (CBMJ) is acquiring conservative and Christian new media firms to build scale to compete with the massive publicly traded fake news conglomerates. Only by working together will conservatives be able to reach their growing audiences with daily commentary and news. As tech suppression grows, the challenges grow and the opportunity grows. This is the start of something huge" says Floyd Brown, Director of CBMJ.*

Mark Schafflein, CEO of both Conservative Broadcast Media & Journalism and Capital Consulting Inc. says *"We are delighted to have signed the LOI with AMPNews and at closing they will become part of our voice. While censorship is everywhere, AMPNews has gained a following by spreading Conservative Christian values through their distribution platform."*

John Michael Chambers, the Founder of AMPNews has been battling censorship of his network for years saying, *"It's time we join forces in this information war and this merger with CBMJ will play a huge part in empowering the Patriot movement towards victory with truth in news. This is the breakthrough moment that Patriot Media needs, and that Americans everywhere want."*

News - Western Journal

At a time when mainstream media and factcheckers are suppressing and cancelling the information Americans have access to, groups like CBMJ and AMPNews are encouraging and fighting for Freedom of Speech and Freedom of the Press. Now, more than ever, we need to support Independent Journalists and New Media.

With the asset purchase of AMPNews by CBMJ, Americans can invest in a publicly traded Patriot Media Company for the first time.

Kris Edelkamp, CEO of AMPNews will continue to run daily operations over the TV network which is currently the home of nearly 20 highly popular independent broadcast news and entertainment shows. Edelkamp reacted to the merger by saying *"Get ready for something new that no one is doing in the Patriot Media space. AMPNews will become the one stop shop for Patriot shows and Patriot viewers. We are the media now."*

Edelkamp adds that the merger will bring about an *"entirely new media structure for Patriot information"* saying *"in an age of censorship, suppression, depopulation, and cancel culture brought on by Government tyrants and corporate monoliths, freedom of the press and freedom of speech has to be paramount. Those organizations have turned their backs on the Constitution and what makes America great...Freedom; and we will make them pay the cost for that disregard of basic human rights."*

Under the terms of the LOI, CBMJ will issue a \$2.0M non-interest bearing note payable over 5 years and issue 2.5M shares of Restricted Common stock.

American Media Periscope is projecting 2023 revenue of \$3.0M.
